

TRUE NORTH ADVENTURE

OUR NEW PROGRAM FOR THE 2025-2026 ACADEMIC YEAR

With True North Adventure, your group can move at your own pace through courses, lingering on areas of interest for your students. We will continue to offer Adventure Programming courses and will add an exciting, daily worship component.

We're revamping our course materials to be simple to use and easy to understand for all learners with the help of Course Snapshots. Move at your own pace through the material, spending time on the content that engages you the most.

Spiritual emphasis is still the heartbeat of our ministry. We'll offer devotions each morning, an impactful Fireside experience, and sections in the guidebook to debrief with.

Courses include:

- o Pond Community
- o Slingshots
- o Archery
- o Basic Compass
- o Challenge Initiatives
- o Fire-building
- o Geocaching
- o Hikes (Waterfall, Swamp, Creek)

Course Snapshots empower your staff to direct the Educational Blocks.

Hike Example: using the provided maps and guide materials, make your way along one of our marked trails. Along the path, you'll find colorful placards which correspond to material in your education guide. The guide is full of information on flora, fauna, and the special features of each hike.
